

Good Soil Seminar

Evangelism & Discipleship

Good Soil Evangelism & Discipleship (E&D) is a theology of evangelism and discipleship based upon three distinct emphases that Jesus made regarding the identification of “good soil” in His parable of the soils.

The primary focus is on cross-cultural evangelism and discipleship, in North America or elsewhere around the world, with people who have had little or no exposure to the Bible.

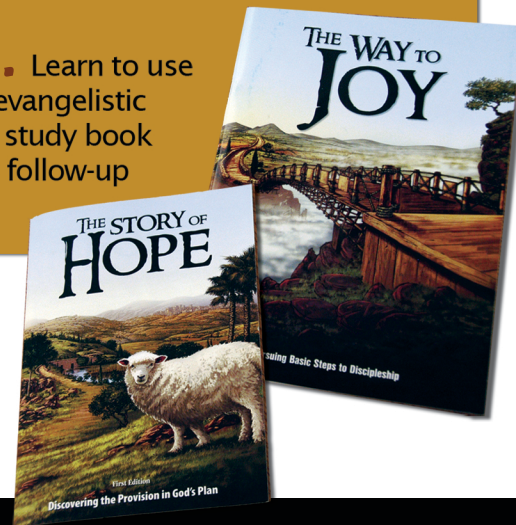

Key Features of Good Soil E&D training:

- Peeling an unbeliever’s “worldview onion” through redemptive conversations
- Evaluating a person’s position on the Good Soil E&D Scale
- Determining how much gospel content and Biblical context an unbeliever needs
- Penetrating unbiblical worldview noise using the Bible’s Big Story
- Using the Chronological Bridge to Life to help unbelievers embrace the gospel of Jesus Christ
- Discipling new believers through their first steps in following Jesus
